

Hypothetical Amendments to Water Rights

1. Amend the water right to change the permitted use from municipal use to industrial use.
2. Amend the water right from a permitted use of municipal to multiple uses: municipal and industrial.
3. Agricultural/irrigation to add industrial use.
4. Amend a 1,000 ac. ft./yr. agricultural/irrigation to change the place of use from one tract of land to another tract of land, all within the same basin.
5. Same as number 4, but now the new tract of land is outside the basin.
6. Amend a water right with an agricultural/irrigation use to add instream use.
7. Amend a water right for industrial cooling water to add municipal use.
