DOMESTIC WASTEWATER

The following summary is provided for this pending water quality permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Woodmere Development Co., Ltd. (CN602463333) proposes to operate Waller County Municipal Utility District No. 42 Wastewater Treatment Plant 5. Enter Regulated Entity Number here (i.e., RN1#####). a wastewater treatment plant. The facility will be located on Neuman Rd, approx. 2,450 ft south of the intersection of Morton Rd and Neuman Rd., in Pattison, Waller County, Texas 77423.

This application is for a new permit allowing for the discharge of treatment domestic wastewater at a daily average flow of 300,000 gpd.

Discharges from the facility are expected to contain five-day carbonaceous biochemical oxygen demand (CBOD₅), total suspended solids (TSS), ammonia nitrogen (NH₃-N), and *Escherichia coli*. Additional potential pollutants are included in the Domestic Technical Report 1.0, Section 7, *Pollutant Analysis of Treated Effluent and Domestic Worksheet 4.0* in the permit application package. Domestic wastewater will be treated by an activated sludge process plant and the treatment units include a manual bar screen, aeration basins, a secondary clarifier, sludge digesters, and a chlorine contact chamber.
